

Hess Maschinenfabrik GmbH & Co. KG, 57299 Burbach-Wahlbach, Germany

Hess Group In-House Trade Fair 2011

This year, the Hess Group from Burbach-Wahlbach is once again inviting trade visitors and interested parties to its traditional in-house trade fair. The full-range supplier to the building industry will present a selection from the Hess Group's range of products on 22 and 23 September.

Thus in 2011 the machine manufacturer will once again provide the platform for discus-

sions about the concrete block, pipe and porous concrete industry. In addition to a

comprehensive machine exhibition, Hess will be offering interesting insights into its departments over these two days. Innovation is thus written in capital letters once again in 2011 in Burbach!

Visitors and interested parties are requested to register for the in-house trade fair directly with Hess in Burbach-Wahlbach.

MBK Maschinenbau GmbH, 88353 Kisslegg, Germany

50th anniversary company open day

On the occasion of its 50th anniversary celebrations in 2011, MBK Maschinenbau GmbH from Kisslegg in the Allgäu region of Germany will be able to look back on a remarkable development. What began as a small turning shop has evolved over time into one of the leading suppliers of reinforcement welding systems for the precast concrete component industry. This success also deserves to be celebrated in a fitting way.

MBK Maschinenbau GmbH Kisslegg is staging an open day event for friends, customers and other interested parties on the first weekend in October (1st/2nd Oct. 2011). This occasion will provide visitors with the opportunity of experiencing MBK system technology live and of comparing notes with their experts.

In the intervening years, MBK has installed more than 800 reinforcement welding machines throughout the world. The company has great expertise in this field and is able to assist its customers on an individual basis.
