

Cage welding is our business.

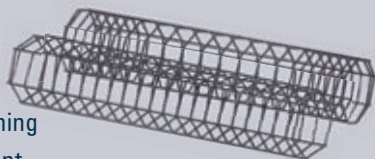

New name, same mission.

At **apilion machines+services** we are committed to continue the proud engineering tradition for which our predecessors, ZÜBLIN MAB were renowned.

We specialize in the design and manufacture of state of the art welding machines for the production of cages for concrete pipes, piles, columns, poles, beams, girders as well as other structural elements.

What we offer:

- engineering expertise
- customized solutions
- professional project planning
- expert project management
- first-rate customer care – worldwide 24/7 support

Hess Group, 57299 Burbach-Wahlbach, Germany

New managing director at Schlosser Pfeiffer

Schlosser Pfeiffer GmbH, a subsidiary of Hess Maschinenfabrik, has appointed Mr. Karl-Werner Kohns as its new managing director. He forms the new top management of the Hess subsidiary together with Peter Kalkofen, who will retire in 2013.

Karl-Werner Kohns became managing director of Schlosser Pfeiffer, a subsidiary of Hess Maschinenfabrik, on 1 May 2012

Kohns, born in 1960, thus belongs to the Hess Group with effect from 1 May 2012. The engineering graduate brings along more than two decades of experience in the concrete block industry. It is intended that the know-how associated with that will drive developments in machine and plant engineering at Schlosser Pfeiffer further forward, so that the company can further strengthen its position in the world market.

Schlosser Pfeiffer GmbH is a leading supplier of machines and plants for the manufacture of concrete pipes, manholes and other precast concrete parts, as well as concrete mixing plants with planetary mixers. ■
