

Top-Werk GmbH, 93057 Regensburg, Germany

Realignment of the Top-Werk Group

As a result of the merger of SR-Schindler and Prinzing in Top-Werk GmbH, there have also been changes with regard to the Top-Werk partner Rimac GmbH in Mauer.

Rimac GmbH, which is now a subsidiary of Semet GmbH & Co. KG, Brackenheim-Meimsheim, is with effect from 14 May 2013 no longer a Top-Werk partner. The background to this is the strategic

realignment of both Semet GmbH & Co. KG, as the parent company of Rimac, and Top-Werk GmbH from Regensburg. ■

New location

bC India moves to Delhi

Following two successful events held in Mumbai the bauma conexpo show – bC India is moving to Greater Noida, near to India's capital of Delhi. The upcoming third edition of this "International Trade Fair for Construction Machinery, Building Material Machines, Mining Machines and Construction Vehicles" is scheduled for December 15 to 18, 2014 in the India Expo Centre in Greater Noida, near Delhi. In total, 170,000 square meters of exhibition space will be available to the event at this venue.

The exhibition center in Greater Noida, close to Delhi, provides both exhibitors and visitors with a significantly improved infrastructure in comparison to the provisional open-air space at the Bandra Kurla Complex in Mumbai: The India Expo Centre not only has fully equipped exhibition space, it also has a business and conference center, a press center and catering facilities. Thomas Löffler, Chief Executive Officer of the show organizer bC Expo India Pvt. Ltd., is satisfied with the move: "We are looking forward to the India Expo Centre as the event venue for bC India. We can offer our exhibitors a total of 28,000

square meters of modern indoor exhibition space and 142,000 square meters of presentation space outdoors. This will help bC India become an even more professional trade platform."

The move to the new location also involves a shift in the dates for the show: from the February in odd-numbered years, to the December in even-numbered years. This also caters to the wishes of many companies for wider spacing within the trade-show calendar. Amit Gossain, Vice President Marketing & Business Development with JCB, states: "It's good to see bC

India shifting to North India where so far there is no large construction equipment exhibition. The Noida Expo Centre is a good centre for world class exhibitions and the customers will enjoy the facilities. Being close to Delhi, government buyers will also take great interest in visiting the exhibition." ■
