

Masa GmbH, 56626 Andernach, Germany

# In Dubai since the very beginning: Present locally for over 40 years and for 15 years with own branch office

Masa has been at home in the Middle East for over 40 years now. Masa machines and plants have been loaded, shipped to the Middle East and installed there since as long ago as the 1970s. Since the establishment of its own branch office in 2001, "Masa Middle East FZCO" has represented the machine and plant manufacturer from Andernach in the Middle East. Specialising in the local customs and conditions, more than 20 engineers, technicians and service employees attend to customers in the entire region today.

Controlled centrally from Dubai, new and existing customers from the United Arab Emirates, Saudi Arabia, Bahrain, Kuwait, Oman and Qatar receive top advice on manufacturing processes for concrete block products of all kinds. Moreover, the Masa branch office is also a service and installation company with its own large spare parts warehouse. Masa thus has the logistics to be able to guarantee the trouble-free supply of spare parts.

The extremely successful work is paying off. On account of its many years of experience and the art of engineering with the tag "Made in Germany", Masa is today one of the leading suppliers in the region with over 250 plants successfully commissioned. Masa will continue in future to be there for its existing and new companies and to support them at all times. ■

Moreover, the Masa branch office is also a service and installation company with its own large spare parts warehouse.

Masa Middle East FZCO in Dubai is celebrating the fifteenth anniversary of its founding

There for 20 years: Masa was, of course, also represented with its own booth at the Big 5 Show in November 2016 in Dubai.
