

Sometimes it just fits

# Sönke Tunn takes over sales management of Kraft Curing Systems

**Sönke Tunn, long-time former Sales Director and Authorized Officer of Wasa AG, switches to Kraft Curing Systems GmbH in Lindern and takes over sales management as of 01.08.2020.**

It was already clear to Sönke Tunn at the end of 2019 that he would leave WASA AG. After almost 13 years, the desire to break new ground and to seek a new challenge was great. It was by chance that in February 2020, Michael Kraft, Managing Director of Kraft Curing Systems GmbH and Sönke met at the ICCX Central Europe in Warsaw and discussed the possibility of working together. The sympathy of both parties was there from the very beginning, which made all remaining practical arrangements perfunctory.

Kraft Curing Systems GmbH supplies high-quality concrete curing systems and corresponding accessories for the concrete industry worldwide. KRAFT shifted the company's focus from Texas, USA to Germany in the mid-1990s in order to better serve the international market. Since the 1990s, KRAFT have supplied over 1300 concrete curing systems in 63 countries throughout the world.

We consider Sönke, who completed his apprenticeship in the field of ventilation technology and can draw on many years of experience in the concrete industry, to be a suitable addi-

tion to the team. For the time being, he will be directly responsible for the D-A-CH area and will also support our international representatives, says Michael Kraft. ■
