

Kobra Formen GmbH, Lengenfeld, Germany

Technology Symposium 2026: Where knowledge meets the future

In its anniversary year 2026, Kobra is once again inviting guests to its technology symposium in Lengenfeld. After three successful events between 2014 and 2023, Kobra will host its 4th Technology Symposium on 15 and 16 September. The venue is once again the company headquarters of Kobra Formen GmbH in Lengenfeld. Both days of the event consist of a theoretical part with specialist lectures and a practical part with workshops in the production halls and offices of Kobra Formen GmbH.

Participants can look forward to the following at this industry gathering:

- Specialist presentations & trends
Experts will talk about current challenges facing the concrete block industry.
- International inspiration
Exhibition of exemplary concrete products from around the world and insights into global design trends
- Pure practice
Demonstrations of the latest molding technologies and insights into additive manufacturing (AM)
- Networking
Platform for exchange with the Kobra "Stone & Design" team and professional colleagues from all over the world.

- Synergy
The proximity to the GaLaBau trade fair in Nuremberg makes it ideal to combine both events.

Registration and further information are available from Kobra Sales or via the company website. ■
